

ARTONE Communication Solutions

Artone MIC

ARTONE MIC Utilize Bluetooth headphones or earbuds as an personalized hearing amplifier. Simply pair Bluetooth headphones with Artone MIC and enjoy amplified sound like never before. Adjust the sensitivity based on surroundings, whether it's meetings, restaurants, or car rides. In any situation where hearing becomes challenging, just hand over the Artone MIC to the speaker and get ready to catch every word with clarity.

- **Crystal-Clear Phone Calls:** Enjoy hands-free conversations with exceptional sound quality. Artone-3 MAX eliminates background noise, ensuring every word comes through loud and clear. (Keywords: phone calls, hands-free, hearing aid, cochlear implant)
